The proviso works out as follows.

~~in the office notice; however, Calls for detailed remarks~~

(1) Para 4 Supra item (i). The bye laws provide that no person shall carry on trade as dairy-man unless licensed by the Council. The provision of the Reg^n authorising the framing of these bye laws do not include the regulating of trade as dairyman, nor trade concerning. They refer only to the inspecting of milch cattle, provisions re Construction, ventilation & cleanliness of dairies & Cattlesheds, and cleanliness of milk stores, milk ships & tradesmans vessels. (vide Sec 48 ¶ (e) extracted in para 2 Supra). Therefore these bye laws No 3 has to be deleted

(2) Para 4, item VII Bye law 10 provides that the floor of each dairy shall be paved throughout with stone slabs, and the joints pointed with asphalt. The dairymen have objected to this in para 7 of their petition. They state that such a pavement will be slippery and the cattle will slip and injure their legs, and state that they will fill in the floor with metal or small stones. Some consideration of the dairymen's objection in this matter appears necessary, and a reference to the municipal Council may probably be well advised

removal of manure daily, to a place fixed by the President. The Municipal Council have asked whether this spot is to be a spot in their land, or a municipal spot. The details of manure in and around big cities is high, and the Municipal will not easily give up the manure they have control over. Hence definiteness in this bye-law is desirable, and a reference to the Municipal Council appears to be necessary.

8: In passing, it may be noted that the Council may also be required to define main road" referred to in Bye-law 11.

9 If approved a draft on these last mentioned four points, also Communicating the verbal alterations suggested in this office, will issue to the Municipal Council.
